Better Workplace Training

877-571-3372

1800 PERIMETER PARK DRIVE, SUITE 120

MORRISVILLE, NC 27560

[www.nstructnow.com](http://www.nstructnow.com)

NstructNow provides web-based learning management systems (LMS) designed to improve the delivery and documentation of workplace training for all industry types. System functions and features include:

- an assortment of basic workplace training course titles
- ability to easily create or link to your own custom course materials
- online testing, training management, and recordkeeping
- automatic staff e-mail reminders
- secure, encrypted access to records and materials
- CE-approved courses in select fields

## GETTING STARTED IS AS EASY AS CREATING YOUR COMPANY'S ACCOUNT ONLINE.

For each system or client account, a collection of course titles is provided including:

- |                        |                          |
|------------------------|--------------------------|
| • Bloodborne Pathogens | • HIPAA Awareness        |
| • Workplace Ergonomics | • Medicare Compliance    |
| • Noise Protection     | • Terrorism Preparedness |
| • Radiation Protection | • Sexual Harassment      |
| • TB Awareness/Control | • Lock Out/Tag Out       |
| • Personal Finance     | • Fire Safety            |
| • Hazard Communication | • First Aid              |

You can upload your own custom materials to supplement these courses or create your own courses from scratch, complete with your own test questions and completion requirements.... no programming necessary. For ease and efficiency, NstructNow allows you to make bulk course assignments by utilizing course and user groups.

You can even send automated e-mail reminders to your staff. NstructNow maintains all documentation of course attendance and completion online, eliminating the need for cumbersome paperwork. Records are available on demand online and can be downloaded in spreadsheet format. For your staff, using NstructNow is equally simple.

They simply logon securely, view their course assignments, and complete them according to your assignment schedule. Course modules are presented in an intuitive, self-paced slide format. All that is needed is an internet connection and an NstructNow account to get started. The system can also be installed on your local network if desired. You will be pleased when you compare the cost and ease of implementing NstructNow to what you currently spend in time and money for equivalent training. Feel free to contact us for a complimentary demo. We look forward to hearing from you!
